President's Column

Hoping you are enjoying the nice weather and being safe as harvest is in full swing and looking pretty good. It is that time to prepare those projects for upcoming months. Start making a list and we will discuss at the next couple of meetings. It is hard to believe, but we have only two meetings left for the year! Be sure to extend an invite to the next two club meetings to friends who would be interested in what we do or what we have on the agenda.

We also want to extend a reminder that nominations are open for any officer or director position for next year.

The Nominating Committee is: Kim Engquist (Chair), Dan Wiest, Cory Clougherty. If you wish to throw your hat in for Officer or Director let one of us know **before** the October 15th meeting.

Thanks, Dan

Treasurer's Report

As of September 30
58 families paid for 2016

Club income	\$2,225
Club expense	\$1,128
Total	\$1,097
Savings	\$6,319

2016-17 Winter Tractor Display

At Princeville Heritage Museum

The tractors and equipment will be available for visitors to see, plus it also gives the tractor owner an opportunity to store their equipment at the Museum for the winter.

Tractors will be accepted on or after Monday, October 31st. Please call the Museum at 385-1916 or Roy Maguire at 274-2683 to set up a time to drop off your tractor. We ask that everyone leave their contact information along with any information about your tractor, so we can make up signage for the display and also for our record keeping as to what is out in each building.

Tractors will be on display in Bld. 1 for the Spring Open House on Saturday, April 22, 2017. They must be removed by Friday, April 28, 2017 so that the Museum can set up for their annual Rummage Sale Fundraiser.

Tractors insured by owner: The Princeville Heritage Museum/ Historical Association of Princeville assumes no liability.

Donations to the Museum will be graciously accepted for display and storage.

What do you call a ghost with a broken leg?

A Hoblin Goblin

Tractor Trivia

Ryan's Round Barn holds 250 tons of loose hay, and a big crew to put up all summer long. So today's balers can pack a ton into 1 bale, and bale around 20 or more bales an hour - so that's about a 12 hour day to put up the same amount of hay!! Speaking of balers: What year did Gary Vermeer design the first round baler?

A. 1971 B. 1964 C. 1959

Answers to Last Month's Tractor Trivia

At the Johnson Sauk State Park near Annawan is the Ryan Round Barn. This is a one-of-a-kind barn designed by Dr. Ryan, completed in 1910. With its numerous features of the day, it's primary purpose was for raising cattle. How many cows did Dr. Ryan have in his barn each year? Answer: 50

WANTED

Reliable vehicle wanted for our teen drivers. Keep your eyes and ears open and call Kevin or Kim with details (309) 579-3293.

Enclosed cargo trailer to transport barrel train and small garden tractor for our club to various events. Dan Wiest (309) 253-4842.
