President's Column

Dan Wiest

I was just on a day trip to Champagne, and I like to look around the countryside and see what is going on. Amazingly, it is May 10, and I only saw 1 field of corn out of the ground, and it was by Chillicothe. And in South Dakota, my brother sent some pictures: The shelter belt still has snow, and we have sloughs that look like lakes! Nonetheless, I have the pool open, and my oats crop is looking good. I am pretty excited about my oats crop, as it appears to be about the only crop that is up and in the area. I also have planted a bunch of trees this year, which has been pretty good weather for that. I still believe that Corn and Beans are in the forecast, as they are amazing crops that adapt to Mother Nature.

On another note, we are entering the Sponsorship Drive for the Show. My plan is to have targeted hand-outs, and we can use your help. If you know the sponsor, and want to help, let me know at the next meeting. We will divide up the work, so it is an easy task for all. Lastly, I understand the rummage sale was HUGE, and the museum really did well! Also the 620 is working out some kinks, and it purrs like a kitten. Kevin and Isaiah drove it for the first time the other day. We will have the video at the next meeting. See you there, bring a friend.

We are still progressing with Isaiah's 620 and had it running the past 2 weeks. Isaiah and Kevin took it for a spin around the museum yard, then it was warmed up enough to drain the fluids. I think Isaiah is getting more excited each week. Thanks to everyone who has been helping with this club project! Pray that the rain will ease up a bit to allow for some fieldwork.
