President's Column

by Dan Wiest

Well Show Season is upon us! I hope you all can join me this coming weekend at Lacon. I have a new display this year that I hope you can come and see. The next 2-3 months will be busy, later this month we will have an upcoming trip to Huron, South Dakota for the annual Red Power Roundup on June 25-27th. If you make the trip, it will be worth it!

The Crop report this year is a bit mixed. Some of the early beans suffered from the cold weather, and had to be replanted, but now this heat is on, and they are growing like crazy. So are the weeds, be on the lookout for Noxious weeds and take care of them right away, or they will take over. Garden status, Strawberry crop was fair, and Val said to stop picking the asparagus! Potatoes, tomato's, etc are looking good.

The 4100 update is a bit slow with all the outdoor activities, but I did make some progress on hose routings.

Meanwhile, I have a new trailer that will make things easier to move. I hope to see you this coming weekend in Lacon

Vice President's Column

by Kevin Engquist

What is the oldest tractor in your collection? Dave Gehrt has a 1933 F20. Does anyone who was not at the last meeting have anything older than that?

As I'm typing this, we are finally getting some much-needed rain. Despite the dry spell, the wheat at the farm is looking fantastic. I recently had a week off and spent time in the shop starting and driving tractors—it was a great preview of what retirement might be like.

The Fords and Farmalls started right up, though the Cletrac needed a little coaxing and a tap on the carburetor before "Cleo" came to life. I'm planning to use some spare parts to figure out how to put a blade on her soon.

Calendar Items
